THE CLIENT

DPD (UK)

Dynamic Parcel Delivery (UK) is a member of Geopost, one of Europe's leading service groups, which is owned by La Poste, the second largest postal group in Europe.

PROJECT

Planned and reactive mechanical maintenance services to DPD (UK)'s nationwide satellite depots.

SERVICES PROVIDED

PWP Building Services Maintenance Division is delivering an annual preventative maintenance contract for DPD's 35 satellite depots nationwide covering warehouse heating, gas installation, office heating, ventilation and hot and cold water services. A reactive service is also being delivered throughout the contract term providing 24-hour emergency cover 365 days per year.

PWP and DPD have worked together over the past years to streamline the annual maintenance spend in this area by carrying common spare parts to minimise re-visits and continually re-assessing individual depot needs.
