CLIENT

Kelloggs

The world's leading producer of cereal and a leading producer of convenience foods.

PROJECT

New 33,000m², 14m high bay warehouse Located on a 14-acre site on Trafford Park, Manchester. The facility can accommodate 32,000 pallets on four levels, and the development includes a two-storey office block, gatehouse and extensive parking.

SERVICES PROVIDED

PWP undertook the full shell and fitout design and build package for all Mechanical and Electrical services. PWP worked closely with Kelloggs to provide full mechanical and electrical shell and fit out services and ensure that the building was cabled and equipped with an advanced IT infrastructure including copper and fibre optic cable and equipment, compatible with the client's existing network.

Working in close co-operation with main contractors Norwest Holst Construction and other sub-contractors, PWP met the client's specific requirements and completed the fast-track programme four weeks early, without disrupting production in an adjacent factory.

THE CLIENT'S VIEW

"Bringing all our stock under one roof in a modern, purpose-built warehouse has simplified operations and has helped us manage our performance levels to customers. We can handle peak demands more readily as it's easier to allocate resources in a more flexible environment.

There's no doubt that close co-operation between PWP and the various contractors helped to ensure early completion, and provided us with a quality structure that one year on, has demonstrated the success of the project."

Kellogg's Mark Hamilton.
