- Electrical installation works.
- Electrical testing and verification.
- Structured cabling installation. (experience preferred but not essential).
- On-call duties as part of a rota.
- General maintenance and fault finding.
- Liaising with a wide range of clients to understand their needs.

**The successful candidate must have the right to work in this country and must possess:**

- NVQ Level 3 or Full Apprenticeship.
- 18th Edition BS7671:2018.
- 2391, 2394/5 or equivalent testing qualification.
- JIB Grading card.
- BS5266-1:2016 Emergency lighting (preferred but not essential).
- IPAF/PASMA (preferred but not essential).
- Full current driving licence.

**The Ideal Candidate:**

The successful applicant will enjoy working to deadlines, be focussed, be passionate about their work and have the ability to work under pressure when needed.

- Experience across a range of commercial and industrial systems.
- Ability to perform electrical maintenance and installations on commercial and industrial facilities.
- Ability to read and interpret specifications and drawings.
- Be committed and self-motivated, with very good written and organisational skills.
- Experience in electrical installation testing.
- Can use their own initiative.
