Project Profile

TITAN HOUSE FOR HIGHBRIDGE PROPERTIES

Highbridge Properties enlisted PWP Building Services' expertise on Titan House, Sherwood Business Park, Nottingham; a £7m shell and fit-out contract for a fully serviced three-storey 40,000 sq ft office and 10,000 sq ft workshop facility.

PWP provided a multi-million pound complete suite of design, installation and commissioning services for the lakeside property including; heat recovery VRV heat pump systems, close control air conditioning for the computer rooms, heat recovery ventilation, LPHW heating to ancillary areas, domestic and public health systems, full BEMS, workshop gas radiant heating, lighting and automatic controls, power systems, voice and data installations, gas suppression systems, generator, UPS and external installations.

The project also comprised extensive security systems including intruder, CCTV and door access systems, plus a comprehensive intelligent fire alarm system; all designed and installed in-house.

"PWP are very pleased to have been awarded the responsibility to develop, design and install a fully integrated suite of building services including security systems for Titan House and to provide an ongoing Facilities Management service, including a 24 hour, 365 day comprehensive call out facility."

Bob Sowter, Director, PWP Building Services Ltd

About Sherwood Business Park

Sherwood Business Park is strategically located on the north-western edge of Nottingham in Annesley, close to Junction 27 of the M1 and has been chosen by a wide range of well-known companies including L'Oreal and Prolog (indeed, both companies also selected PWP as their service provider), Dell and Rolls-Royce.

About PWP

PWP Building Services specialise in design & build contracts and have established a strong reputation for outstanding technical excellence, flexibility, and integrity over the last twenty years. Still proudly managed by its founders, the company today retains its original enthusiasm and commitment to customer satisfaction across all of their areas of expertise: heating & ventilation, plumbing, electrical systems, fire & security and data systems.
